#PROLIFE VICTORIES START HERE

Canada is one of the only countries in the world with no law on abortion. Not only that, but polls also consistently show that the majority of Canadians want abortion restrictions, do not support tax-payer funded abortion and want greater regulations like parental and informed consent. Currently, public policy does not reflect public opinion on this issue because we have a government that is out of touch with not only the concerns of Canadians, but the safety of women and preborn children. The only way we will see legislation passed in the House of Commons, is to nominate and elect pro-life candidates across the country who will pass life-saving legislation. It starts with you and it starts right now.

Let's send a message to our elected officials reminding them that the vast majority of Canadians support some legal restrictions on abortion, in addition to building up a broad, winning pro-life database across Canada. Please sign the petition located in the church foyer or pick up a copy and ask your Pro-life friends to sign! Please return signatures by November 1st, 2023
